4. Any or all of the following breeding methods may be used, by agreement of the parties and with payment of all costs and charges for such methods as described below.

- A. Natural breeding. The stud fee is \$2,200. OR the pick of the litter, at the stud owner's option. This fee is for a one- tie natural breeding. A payment of 20% of the fee (the "breeding fee") will be paid at the time of the breeding. The breeding fee is non- refundable, except in the event the stud owner selects the "pick of the litter" option.

The bitch owner agrees to have a back-up stud dog available in the event that the stud dog is servicing another bitch, or if the stud dog owner is unavailable, during the breeding window.

If the bitch does not conceive on the first service, one additional service will be provided within the next 18 months, at the bitch owner's option. In such event, the charge for the additional service shall be the then-existing stud fee, less the 20% non-refundable breeding fee previously paid.

The bitch owner will pay all travel expenses of the stud owner, as well as veterinary expenses and shipping, all of which shall be promptly paid as a condition of this agreement. The bitch owner agrees to provide a credit card number to the collecting veterinarian to cover any costs. If the bitch does not conceive, no refunds will be made.
